Private 160-acre ranch located in McMullen County off of Cameron Lane. The property is high fenced with good brush and plenty of creek bottom. Numerous senderos have been cut through the property and around the perimeter. There is a large stocked tank with several docks and a storage boat barn. Fed by the water well and creek runoff, the tank stays full. The camp area offers multiple storage sheds, a covered slab which is fenced, a deer cleaning station, and a lighted shooting range. Wildlife on the property is plentiful and includes deer, turkey, quail, dove, javelina and bobcats. This property is a small-acreage must see.
